Technical drawing of a rectangular plate with a curved left edge. The overall width is 130 and the overall height is 110. The left edge is a quarter-circle arc with a radius of 65. There are four holes, each with a diameter of 12 (4- $\phi 12$). The holes are arranged in a 2x2 grid. The horizontal distance between the center of the left hole and the center of the right hole is 80. The vertical distance between the center of the top hole and the center of the bottom hole is 80. The distance from the right edge of the plate to the center of the rightmost holes is 15. The distance from the bottom edge of the plate to the center of the bottommost holes is 15. A leader line points to one of the holes with the text "4- $\phi 12$ " and "配铰" (Match reamer).
